

## Get the full Office suite with Office 365...

When purchasing Office 365, customers receive an always up-to-date version of the full Office desktop applications including:

**Outlook:** Manage your email, schedules, contacts, and to-do items. Outlook is the one place to go to communicate with all of your important contacts.

**Word:** Create documents with style and polish, work with others easily – and enjoy the new reading experience on modern touch devices.

**PowerPoint:** Easily work with others and design beautiful presentations. Presenting tools help you deliver your ideas and impress your audience.

**OneNote:** All your notes together and with you anywhere. OneNote is your digital notebook for capturing to-dos, meeting notes and anything else you need to remember.

**Excel:** Excel gives you intuitive ways to explore your data. Quickly discover new ways to visualize your data, and see your information in new depths.

**Publisher:** Use familiar, simple tools to create and share professional-looking, personalized publications that make an impact.

## ...plus great new benefits provided by the cloud!

Office is delivered as a per-user subscription that is straightforward to download and install on your computer. No IT needed.

**Be always up to date:** With Office connected to the cloud, you always have the latest version of the desktop applications, with unobtrusive updates.

**Use Office on your smartphone and tablet:** Access your documents and make edits on the go with Office apps for iPad, Windows Phone, iPhone and Android phones.

**Use on 5 PCs and Macs:** Each user can use the Office desktop applications on 5 Windows PCs or Macintosh computers, at work or at home.

**Anywhere access to documents:** Office saves to your online storage by default, so your files are automatically backed up and linked to you virtually anywhere you go. No more heading back to the office to get a file or document.

## How can I buy Office in Office 365?

All of these Office 365 plans include the full Office suite as mentioned above and can be combined in a single Office 365 account. Here a few key differences between plans.

	Email, calendar (Exchange)		●		●
	Online meetings, instant messaging (Lync)		●		●

## With Office 365, you get the latest Office applications – and much more.

At its heart is Office itself—the familiar Office applications businesses use everyday—now offered as a cloud service, so it’s always up to date. But Office 365 is also so much more. It’s about bringing enterprise-grade services to organizations of all sizes, from online meetings to sharing documents to business-class email.

-  **Always up-to-date.** Never buy a new version of Office again!
-  Each user can install Office on **up to 5 PCs or Macs.**
-  **Save to the cloud** for backup and anywhere access.
-  Use Office on your **smartphone and tablet.**

 **Business-class email** Large, 50GB mailboxes that can send messages up to 25MB in size, with contacts, shared calendars and spam and malware protection that stays up to date. Built with Exchange email technology, the leading email solution for business around the world. Use your own custom domain for your email address, connect with Outlook for fully featured offline support, and access via the web through any modern browser. Available on your PC or Mac, as well as Windows Phone, iPhone, Android and Blackberry devices.

 **Online meetings** Hold scheduled or ad hoc online meetings for up to 250 participants, with screen sharing, audio & video, virtual whiteboards, polls and shared notes. Partners and customers can fully participate through any HTML-5 browser

 **Online document storage and file sharing** 1TB of space in the cloud to store, backup and easily share files. Files are accessible from almost any device, also synchronized offline and available without an internet connection.

 **Private social networking and collaboration** A social network that helps your company stay connected, share information across teams and make faster, more informed decisions.

 **Technical support** Telephone support for setup and deployment issues, as well as online answers, how-to resources, and connections with the Office 365 customer community for additional help.

 **Simplified IT Management** Reduce headaches by reducing your IT infrastructure. Content lives safely in globally distributed datacenters with continuous backup & disaster recovery abilities.

 **Financially backed SLA** Get peace of mind knowing your services are available with a financially-backed 99.9% uptime service level agreement.

## Office 365 & the cloud changes how work is done...

 **Get work done from anywhere** Wherever your people are, online or offline, they can get to—and work with—the most up-to-date versions of the files and tools they need to get things done. And they can do it on virtually any device.

 **Work better together—simply** Office 365 offers business-class email, shared calendars, IM, web conferencing, and access to the most up-to-date documents stored in the cloud. You can work together in real time without compromising security.

## ...and how companies consume IT.

 **Reduce your capital expenditure** Office 365 is available as a simple monthly subscription. Avoid large up-front costs for new software while moving the cost of IT from capital to operating expense.

 **Be always up to date** Since Office 365 is in the cloud, it is always up to date. No patches or software upgrades necessary. Microsoft is adding new value and capabilities on a monthly basis.

 **Cut hardware and energy costs** Without servers to run for email, websites and document storage, you can reduce energy costs and save by no longer purchasing new server hardware.

 **License per user** Simplify licensing while providing each user access to business critical technology on 5 PCs/Macs and 5 mobile devices. Save money when compared to traditional, per device licensing.

 **Scale your business quickly** Office 365 grows with you - adding a new user is as simple as buying an additional license.

 **License what you need** Office 365 provides many plans to fit the right capability needs and price points for each user in an organization.
